Mr. Capps:

Recommend approval with your digital signature for a Certificate of Networthiness (CoN) for Microsoft Office Visio 2007 Application. This is a Commercial off the Shelf (COTS) product.

The Directorate of Public Works Business Operations and Integration Division, has requested a Certificate of Networthiness (CoN) for the Microsoft Visio 7.0 application. This application will be used at the DPW training lab at Fort Bragg, NC. The application will also be added to the Approved Products list for Army wide use.

ArcInfo is a Geographic Information System (GIS) Commercial off the Shelf product. ArcInfo provides all the functionality for creating and managing an intelligent GIS including maps and globes, data, metadata, geodatasets, and workflow models. This functionality is accessible via an easy-to-use interface that is customizable and extensible through models, scripting, and applications.

This COTS software package will be added to the approved product COTS listing for future users. The CoN is valid only for the duration of the current version of this COTS product, Microsoft Visio 7.0.

The NETCOM POC is Ms. Kathy Laymon, 520-538-0295, e-mail Kathy.laymon@us.army.mil
